ABOUT ME

I'm a passionate MERN Stack Developer and recent B.Tech CSE graduate eager to start my professional journey. I enjoy building full-stack web applications and continuously learning new technologies to improve my development skills.

Professional Summary

MERN Stack Developer passionate about building scalable, user-friendly, and data-driven web applications. Strong foundation in React, Node.js, Express.js, and MongoDB, with hands-on experience in developing complex full-stack projects and AI-integrated systems. Eager to contribute to real-world applications and grow as a professional web developer.

EDUCATION

B.Tech in Computer Science and Engineering

HRIT, Ghaziabad – Affiliated to Dr. A.P.J. Abdul Kalam Technical University (AKTU), Lucknow

Year 2022 - 2026

HRIT is one of the reputed institutions in Uttar Pradesh, offering quality technical education and practical exposure through modern labs, experienced faculty, and an innovation-driven environment under AKTU's academic framework.

PROJECTS

Eye Wear (Optical Store Management System)

A full-stack web application designed for optical stores to manage customers, employees, and products across multiple branches. Includes a powerful admin dashboard to monitor sales, inventory, and staff performance. Built using React, Node.js, Express.js, MySQL, and Tailwind CSS.

InteliHire (AI-Powered Resume Scanner and Recommender System)

An AI-driven platform that analyzes resumes, matches candidates with job descriptions, and ranks them using advanced text similarity algorithms. Features PDF parsing, Gemini API integration, and CSV export for HR teams. Developed using React, Express.js, MongoDB, and Gemini API.

SKILLS

React.js, Node.js, Express.js, MongoDB, MySQL, JavaScript (ES6+), Tailwind CSS, RESTful APIs, Git, Responsive Web Design
